MAY 13 2015

Dear Concerned Citizen,

On April 1, 2015, the City of Greater Sudbury reissued a Notice of Completion for its Second Avenue Infrastructure Improvements, Donna Drive to Kenwood Street Project (Project) and submitted a Project File for public and agency review.

Between April 23, 2015 and April 30, 2015 you requested that the Minister of the Environment and Climate Change require the City of Greater Sudbury to prepare an Individual Environmental Assessment for this Project (known as a Part II Order).

The Ministry of the Environment and Climate Change has sent the attached letter to the City of Greater Sudbury (City) informing them that additional work is required in order to complete the Municipal Class Environmental Assessment process for the Project in accordance with the Environmental Assessment Act. I would like to highlight the following for your information:

- As noted in the letter, the Part II Order requests made for the Project will not be given further consideration as the Project is not considered complete.
- Once the City addresses the ministry's request for additional information, it will be required to revise the Project File, post a new Notice of Completion and directly notify you of the posting, in order to proceed with the Class Environmental Assessment process.
- Should you continue to have outstanding concerns with the Project, you will have an opportunity to submit a Part II Order request during a public review period if the City chooses to issue a revised Notice of Completion.

A copy of the attached letter has also been mailed to you. Please contact Ms. Dorothy Moszynski, Project Evaluator at dorothy.moszynski@ontario.ca or at 416-212-3693 if you have additional questions regarding the Part II Order process.

Sincerely,

Annamaria Cross
Manager
Environmental Assessment Services Section
